EDUCATION

Master of Science in Health Economics, Policy & Law

Erasmus University Rotterdam - 01/09/2017 – 30/08/2018

- **Thesis Publication:** [Death by Austerity: the impact of cost containment on avoidable mortality in Italy](#)

- **Focused on:** Economics and financing of healthcare systems with focus on development and access to health innovation, health technology assessment, and (comparative) health policy analysis.

Bachelor of Science in European Public Health

Maastricht University - 01/09/2014 – 30/08/2017

- **Focused on:** Epidemiology, Statistics, Quantitative & qualitative methodologies, Academic writing, Public Health, Health systems & policies analysis, Health economics, European law & institutions, Sociology & philosophy of health, etc.

WORK & RESEARCH EXPERIENCE

• Research Consultant at Open Health (work)

↑ 01/01/2022–Ongoing

Consultant in the Strategic Market Access team with expertise in project management. I am experienced with strategy planning and implementation, performing both qualitative and quantitative research (big fan of mixed methods). Projects content include:

- Developing **digital health strategy** (thought-leadership, evidence generation strategies, strategic stakeholder engagement)
- Performing **health policy analysis** (HTA regulations, patients' engagement, digital health, screening, and vaccination policies).
- Developing **consensus papers and research** (for example: Delphi panels, consensus statements, etc.).
- Conducting (systematic) **literature reviews, stakeholder interviews, and patient research** across several disease areas.
- Preparing **global value dossiers, HTA submissions and reimbursement dossiers** across several disease areas.
- Supporting **network meta-analyses, cost-effectiveness analysis and utility studies**.

• Associate Research Consultant at Open health

↑ 01/01/2021–31/12/2021

• Senior Research Analyst at Pharmerit (now Open Health)

↑ 01/08/2019–31/12/2020

• Research Analyst at Pharmerit (now Open Health)

07/03/2018–31/07/2019

Member of the Italian association of Telemedicine (independent commitment)

01/01/2022–Ongoing

Managing a research project on knowledge and acceptance of digital health innovations among healthcare professionals and collaborating for the development of surveys for the assessment of telemedicine practices in Italy.

Research - Publication of Master thesis: Policy analysis - [Death by austerity in Italy](#)

30/08/2018–17/08/2020

Together with my professor and a colleague, we examined the intended and unintended effects of the Italian austerity policy “Piani di Rientro” aimed at containing the cost of the healthcare sector. In line with this work, I was interviewed by some Italian news agencies (radio and local TV) and I hold a presentation during an event organized by Bocconi University.

Research - Placement at the Indian Institute of Public Health

15/02/2017–10/06/2017

Performed research (stakeholder interviews and mapping) on **Public-Private Partnership (PPP) models** for healthcare delivery and their impact on access to healthcare, and on the growing role of **Big Data and social media in healthcare**.

SKILLS

Italian (native)	100%
English	100%
Dutch	75%

My Publications

PROFESSIONAL DEVELOPMENT

Market Access Research

SLRs, HTAs submissions, GVDs & support for Models, NMAs across different disease areas
(mostly IBD & Oncology - conference abstracts published)

Payer and physicians interviews to inform value stories and market access strategy
(on, e.g. unmet need, relevant endpoints, patient engagement strategy, etc.)

Assessment and comparison of **HTA frameworks and requirements**
(e.g. [conference abstract and presentation](#))

[Pharma-phorum deep-dive](#)

Digital Health Policy: DHPs and AI in healthcare

Assessment of artificial intelligence policies in health and healthcare in Europe
([white paper on EU policies for AI](#))

Assessment of **DHPs access policies and regulations** in Europe
([white paper on DHPs' policies soon a manuscript](#))

Assessment of **HTAs of DHPs** across Germany, the UK, and France
([conference presentation: ISPOR 2022](#))

[Meningococcal vaccine policy review](#)

Health Policy and system research

Health inequality and healthcare system analysis: evaluation of Italian austerity healthcare policy (PdR) on mortality
([manuscript published in HE journal](#))

Health prevention policies: two manuscripts on screening ([Cervical cancer screening](#)) & vaccination (meningococcal vaccine) policies;
+ proposal for screening program in Calabria (Italy)

Health innovation policy: assessment of HTA collaboration policies in the EU & patient engagement in HTA
(e.g. [EUnetHTA](#), [BeNeLuxA conference presentation](#))

[Joint HTA in the EU - abstract](#)
